Re: 10/540,762

This file was pulled from Central Files after applicant called the PCT Help desk for information regarding the Form PCT/DO/EO/912 mailed herein.

This national stage application was filed 24 June 2005, only 14 months after the priority date. The application contains the request to immediately begin processing, the basic national fee, an executed declaration, and an English translation of the international application. However, applicants did not include a copy of the international application as filed (they indicate that a copy of the international application has been communicated by the IB).

Because the file did not include the international application, we mailed out the Form PCT/DO/EO/912.

On the same day we mailed the Form PCT/DO/EO/912, the international application published. I have printed out a copy of the international publication and placed it in the file.

Please proceed with processing of this application.

Thank you.
